

The Photo Challenge

First, cut out the list below, then put each category into a bowl. Now- without looking –pull one piece of paper from each category to decide what and how you'll be shooting. It's all about inspiration, so if the combination sounds too difficult, draw again. If you want to take it further, add your own subjects and lenses.

Themes & Subjects		
Portraits	Figure in a Landscape	At Home
Candid's	Architecture	Time
Self Portrait	Decay & Dereliction	Man & Machine
